

The New Apple iMac. The Ultimate all-in-one.

Faster processor & Faster graphics power.

iMac and the environment.

Apple designs products with the environment in mind. That's why iMac is energy efficient, free of many harmful toxins and highly recyclable.

Efficient power supply

iMac includes a highly efficient power supply that reduces the amount of power wasted when bringing electricity from the wall to your computer. Lower power consumption reduces energy bills and lessens the environmental impact of greenhouse gas emissions from power plants.

Advanced power management

Unlike a lot of Windows-based PC systems, iMac uses energy-efficient hardware components that work hand in hand with the operating system to conserve power. Mac OS X spins down hard drives and activates sleep mode on already energy-efficient LED-backlit displays. And it balances tasks across both central processors and graphics processors. Mac OS X never misses a power-saving opportunity, no matter how small. It even regulates the processor between keystrokes, reducing power between the letters you type. That's just one of many ways Apple manages small amounts of power that add up to big savings.

Recyclable materials

Apple designers and engineers have integrated the entire iMac computer into an enclosure made from a single, solid piece of recyclable aluminium. The display is made of recyclable glass. Both the aluminium and glass materials are very desirable to recyclers, which means the raw materials used in iMac can be reused in other products.

iMac 21.5" 2.5GHz 4/500GB £832.50
Intel Core i5 2.5ghz, OSX Lion, 4GB DDR3 RAM, Slot loading 8x Superdrive (DVD±RW/DVD+R Dual Layer) 500GB SATA Hard Drive, 21.5" Full HD Display, 1920x1080 Resolution, ATi Radeon HD 6750 512MB, 4 x USB2.0, 1 x Firewire 800, 10/100/1000 LAN, Airport Extreme 802.11N WiFi, Bluetooth 2.1+EDR, Thunderbolt Port, built in speakers, Microphone, iSight HD Webcam/Facetime HD, iLife 2011, Frontrow, Photobooth. (APPC464)

iMac 21.5" 2.7GHz 4/1TB £1040.83
Intel Core i5 2.7ghz, OSX Lion, 4GB DDR3 RAM, Slot loading 8x Superdrive (DVD±RW/DVD+R Dual Layer) 1TB SATA Hard Drive, 21.5" Full HD Display, 1920x1080 Resolution, ATi Radeon HD 6770 512MB, 4 x USB2.0, 1 x Firewire 800, 10/100/1000 LAN, Airport Extreme 802.11N WiFi, Bluetooth 2.1+EDR, Thunderbolt Port, built in speakers, Microphone, iSight HD Webcam/Facetime HD, iLife 2011, Frontrow, Photobooth. (APPC465)

iMac 27" 2.7GHz 4/1TB £1165.83
Intel Core i5 2.7ghz, OSX Lion, 4GB DDR3 RAM, Slot loading 8x Superdrive (DVD±RW/DVD+R Dual Layer) 1TB SATA Hard Drive, 27" Full HD Display, 2560x1440 Resolution, ATi Radeon HD 6770 512MB, 4 x USB2.0, 1 x Firewire 800, 10/100/1000 LAN, Airport Extreme 802.11N WiFi, Bluetooth 2.1+EDR, 2 x Thunderbolt Ports, built in speakers, Microphone, iSight HD Webcam/Facetime HD, iLife 2011, Frontrow, Photobooth. (APPC466)

iMac 27" 3.1GHz 4/1TB £1374.16
Intel Core i5 3.1ghz, OSX Lion, 4GB DDR3 RAM, Slot loading 8x Superdrive (DVD±RW/DVD+R Dual Layer) 1TB SATA Hard Drive, 27" Full HD Display, 2560x1440 Resolution, ATi Radeon HD 6970 1GB, 4 x USB2.0, 1 x Firewire 800, 10/100/1000 LAN, Airport Extreme 802.11N WiFi, Bluetooth 2.1+EDR, 2 x Thunderbolt Ports, built in speakers, Microphone, iSight HD Webcam/Facetime HD, iLife 2011, Frontrow, Photobooth. (APPC467)

As Above With Core i7 3.4ghz £1507.50

Models are also available configure to order, enquire with a member of staff.

Extended 3 Year Warranty

AppleCare for All iMac models (APPX038)

£119.95
