Wired & Wireless Networking

Want to use the **Wi-Fi** card in your laptop around your home? Then you will need a Broadband connection with a **Wi-Fi** Router on your home telephone line. There are many options available so please ask for assistance in purchasing the right system. Please note that granite internal walls can cause **Wi-Fi** signals to be blocked but there are options in such a case.

You can use your **Wi-Fi** enabled laptop computer in '**Wi-Fi hotspots**' in places like cafés, airports, railway stations, hotels etc.. Some of these places have the network encrypted so to use the network you will need to ask for the encryption key.

Wired Modem From (NETX005) £44.95
Wireless Modem / Router From (NETX037) £59.95

Software
